

Open Position: Product Designer (UI/UX)

Department: Product & Engineering

Moar Space Ltd is the pioneer coworking space in Bangladesh. With strategic locations in key commercial areas, including Banani, Gulshan and Dhanmondi, we offer a dynamic ecosystem for businesses of all shapes and sizes to thrive.

Role Overview

MOAR is looking for a thoughtful and detail-oriented Product Designer to help shape the user experience of our digital products. The ideal candidate will combine strong design thinking with a user-centered mindset and the ability to translate product ideas into clear, intuitive interfaces. You will work closely with the product team, engineers, hosts and users to design solutions that improve usability, solve real user problems and continuously enhance the overall product experience.

Key Responsibilities

- Design user-friendly product experiences for web and mobile platforms
- Translate product requirements and user needs into wireframes, prototypes and high-quality UX designs
- Conduct user research and usability testing to validate design decisions
- Iterate on designs based on feedback, data and product performance insights
- Conduct design audits across the product and review post-release UX metrics to identify usability issues and continuously improve the user experience
- Ensure consistency, usability and brand clarity across all product interfaces
- Build and maintain reusable Figma components and keep design files well organized to ensure consistency, scalability and efficient collaboration with product and engineering teams

Required Skills & Qualifications

- 2 years of experience in Product Design, UX/UI Design for web and mobile applications; experience working in e-commerce or fast-paced company and working with design systems is a plus
- Strong understanding of user-centered design principles
- Proficiency in design tools: Figma, ability to create wireframes, prototypes and high-fidelity UI designs
- Good understanding of user research and usability testing
- Strong communication and collaboration skills
- Ability to take feedback and iterate quickly
- A strong portfolio demonstrating thoughtful product design work

Benefits & other Information

- 3 festival bonuses per year
- Weekly holidays: Friday & Saturday
- Evening Snacks
- Leave as per BLL06
- Office hours: Flexible Timing (9 Hours)
- Job type: Full-time
- Location: Gulshan Link Road, Dhaka
- Salary Range: 25,000 – 30,000 BDT (Depending on experience)
