

We are hiring a proactive DevOps Engineer to join our growing team. In this role, you will take ownership of system reliability, containerization, security, and cost-efficient cloud operations.

### What you bring to the table,

- 3–4 years of experience in DevOps/SRE roles.
- Strong hands-on experience with Linux, Docker, and CI/CD pipelines.
- Familiarity with cloud platforms (AWS/GCP), monitoring tools, and infrastructure security.
- A passion for automation and optimizing performance.
