🔍 We're Hiring – Software Engineer

Vacancy: 04

Employment Type: Full-time (In-office)

Location: Plot #26, Main Road, Block-C, Aftab Nagar, Badda-1212

💼 Job Context:

Cloud Development and Data Analytics Limited (CDDA) is looking for talented and passionate Software Developers to join our growing team. The ideal candidate will have hands-on experience in building end-to-end web applications, database design, and optimization. We value problem-solvers who thrive in an agile environment, with excellent communication skills, strong attention to detail, and a drive to continuously learn new technologies and industry best practices.

🔧 Technical Skills & Experience (Required):

1–2 years of proven professional experience in software development MERN Stack expertise:

MongoDB – Database design & management

Express.js – Server-side development

React.js – Frontend development & component architecture

Node.js – Backend development & API creation

📌 Additional Technical Requirements:

Next.js – React framework for production applications

Prisma ORM – Database toolkit and query builder

Raw SQL – Query writing & optimization

RESTful API development & integration

Version control (Git)

Responsive web design principles

✨ Additional Plus Points (Good to Have):

Hono.js – Lightweight web framework

TypeScript proficiency

Cloud platforms (AWS, Azure, GCP)

Testing frameworks (Jest, Cypress, etc.)

Docker & containerization experience

🎓 Educational Requirements:

Bachelor's degree in Computer Science & Engineering (CSE) or Software Engineering (SWE) (Preferred)

Strong academic background with a solid foundation in computer science fundamentals

📌Experience Requirements:

Minimum 1–2 years of relevant experience

💰Salary: Negotiable

🎁**Official Benefits & Terms:**

* 5 working days per week (Sunday–Thursday).

* Annual leave, sick leave & government holidays.

* Performance bonus & yearly salary review.

* Professional development opportunities & learning support.

* Friendly work environment with a collaborative team culture.
